The event you are reading about is the biggest and the grandest I-Code event that is held by Technovanza. Ultimate Coder doesn’t just test your ability to code, it goes deeper into how you can perform under pressure. It’s not tough to become a coder, being an ultimate coder, on the other hand, is a different story. As you qualify for each round, you will find that the tasks get harder and the approach to get the solution gets even tougher. So if you think you have the skills and talent, if you think you’re the Ultimate coder, join us. Let us find the Ultimate Coder who can withstand the obstacles thrown at them and rise to the top.

TEAM SPECIFICATIONS
A team should have two members. The members of the team can be from different colleges. A person cannot be part of more than one team. They need to be registered only once in any team.

RULES
1. Usage of mobile devices and/or other smart devices is not allowed.
2. Strictly no use of the internet is allowed.
3. The languages that are allowed to code in are C, C++, Python and Java. No other programming languages are allowed for this event.
4. All the code written by you needs to compile and run according to the set of questions given.
5. There will be hidden tests that need to be fulfilled for the code to be verified as an accurate solution.
THEME

The theme this year for I-Code is the Avengers Infinity stones. On acquiring all the Infinity stones, the wielder can use the power of all the stones. The culmination of that power is what we call The Snap.

ROUND 1

We have six Infinity stones in our hand and we are looking for a wielder. Someone who is worthy and has the knowledge required to use the power for good. This round is going to be an MCQ based one where you need to solve 90 questions in 10 minutes. Since we want suitable candidates, we have incorporated negative marking for the wrong answers.

ROUND 2

Now that we have decided that you’re a suitable candidate, we need to begin testing your worth. This round is going to be based on the Soul and Power stones. If you know what those Infinity stones are capable of, you should get a clue about what kind of testing would happen. You will be given questions that you need to solve with us snapping away at your complete potential.

ROUND 3

By now you’ve probably gotten a taste of what we expect from our candidates. But wait, it gets even tougher. This round is going to be based on the Mind stone. Altering the human memory and bending it to your will has been a secret desire that we’ve all had. We are going to give you some problems to solve, however, you won’t have a few of your memories in the round.
ROUND 4
This is the final round, we want to remain true to our task of finding a suitable wielder. We are going to have a list of tough questions for you to solve. However, someone snapped away the explanations of the questions. All you get is the Input and the Output fields to work with. Do you have it in you to find out the solution? Are you worthy of wielding the power of the Infinity stones?

CONTACT INFORMATION
If you have any queries regarding the competition and/or anything that wasn’t clear, please feel free to contact the numbers below. You can send us a text or call us.
